IMPACT OF SCIENCE ON SOCIETY, 1988
Subject index

Aerospace engineering
Promoting progress through science. Marchuk, Guri Ivanovich. (149) p. 85-95.

Aerospace industry
Advanced ceramics. Juillard, Jacqueline. (149) p. 25-37, illus.
Materials by design. Wood, John V. (149) p. 5-13, illus.

Africa
Lassa fever and other viral haemorrhagic disorders. Tomori, Oyewale. (150) p. 115-128, illus.
The Promotion of science in an African country. Touré, Saliou. (152) p. 363-371.
Rinderpest and peste des petits ruminants: constant threats to animal farming in many developing countries. Diallo, Adama. (150) p. 179-192, illus., maps.
Science, technology and African values. Urevbu, Andrew O. (151) p. 239-248.

African cultures
Science, technology and African values. Urevbu, Andrew O. (151) p. 239-248.

AIDS
AIDS: a global strategy for a global challenge. Mann, Jonathan M. (150) p. 159-167, illus.
Unesco's action on AIDS. (150) p. 169-170.

Animal diseases
Man, poultry and viruses. Latif Ibrahim, Abdul. Ideris, Aini. (150) p. 171-178, illus.
Rinderpest and peste des petits ruminants: constant threats to animal farming in many developing countries. Diallo, Adama. (150) p. 179-192, illus., maps.

Arab countries
Arab scientific journalism: achievements and aspirations. Mawlawi, Radwan. (152) p. 397-409.

Arabic
Arab scientific journalism: achievements and aspirations. Mawlawi, Radwan. (152) p. 397-409.

Asia
Man, poultry and viruses. Latif Ibrahim, Abdul. Ideris, Aini. (150) p. 171-178, illus.

Attitudes
The Public perception of science. (151) p. 206-298.
Science in its confrontation with society. Calvora, Robert G. (151) p. 231-238.
Science, scientists and society: public attitudes towards science and technology. Khan, Rahat Nabi. (151) p. 257-271.

Australia
Communicating science to the sceptics. Pockley, Peter. (151) p. 219-229.

Automobile industry
Advanced ceramics. Juillard, Jacqueline. (149) p. 25-37, illus.
Materials by design. Wood, John V. (149) p. 5-13, illus.

Bernal, John Desmond
The Social function of science fifty years on. Kröber, Günter. (151) p. 249-255.

Biographies
The Scientific heritage of Vladimir Vernadsky. Yanshine, A.L. Yanshina, F.T. (151) p. 283-296.

Biology
Promoting progress through science. Marchuk, Guri Ivanovich. (149) p. 85-95.

Biomedical research
Automatic DNA sequencing and the human genome sequencing project. Labouze, Eric. (149) p. 75-84, illus.
The Materials of life. Jozefonvicz, Jacqueline. Jozefowicz, Marcel. (149) p. 39-46, illus.

Biosphere
The Scientific heritage of Vladimir Vernadsky. Yanshine, A.L. Yanshina, F.T. (151) p. 283-296.

Biotechnology
The Materials of life. Jozefonvicz, Jacqueline. Jozefowicz, Marcel. (149) p. 39-46, illus.
Plant virus diseases and the application of biotechnology. Robinson, David J. (150) p. 193-201, illus.

Cancer
The Hepatitis B virus. Sonigo, Pierre. (150) p. 129-135, illus., maps.

Cartoons
Science through the cartoonist's eye. Harris, Sidney. (152) p. 383-386, illus.,

Ceramics
Advanced ceramics. Juillard, Jacqueline. (149) p. 25-37, illus.
Materials by design. Wood, John V. (149) p. 5-13, illus.
The Superconductivity revolution? Smith, T. Fred. (149) p. 15-24, illus.

Chemical analysis
The Laser, a versatile tool. Mehendale, Shrikant C. Rustagi, Kailash C. (149) p. 47-59, illus.

Chemistry
Promoting progress through science. Marchuk, Guri Ivanovich. (149) p. 85-95.

China
Fostering understanding between scientists and the public. Zhang Daoyi. (152) p. 355-362, illus.
Human virus diseases in China: research and control. Zhu Ji-ming. (150) p. 137-146, illus., maps.
Choice of technology
Science, technology and African values. Urevbu, Andrew O. (151) p. 239-248.
Chromosomes
Automatic DNA sequencing and the human genome sequencing project. Labouze, Eric. (149) p. 75-84, illus.
Communication technology
The Laser, a versatile tool. Mehendale, Shrikant C. Rustagi, Kailash C. (149) p. 47-59, illus.
Composite materials
Advanced ceramics. Juillard, Jacqueline. (149) p. 25-37, illus.
Materials by design. Wood, John V. (149) p. 5-13, illus.
The Materials of life. Jozefonvicz, Jacqueline. Jozefowicz, Marcel. (149) p. 39-46, illus.
New materials, new machines. (149) p. 1-98, illus.
Côte d'Ivoire
The Promotion of science in an African country. Touré, Saliou. (152) p. 363-371.
Cultural values
Science, technology and African values. Urevbu, Andrew O. (151) p. 239-248.
Denmark
Popularization of science in Denmark in relation to women. Olesen, Dorte. (152) p. 373-382, illus.
Design
Materials by design. Wood, John V. (149) p. 5-13, illus.
Developing countries
Rinderpest and peste des petits ruminants: constant threats to animal farming in many developing countries. Diallo, Adama. (150) p. 179-192, illus., maps.
Science: the need for North-South conciliation. Faruqui, Akhtar Mahmud. (151) p. 273-282.
Disease control
AIDS: a global strategy for a global challenge. Mann, Jonathan M. (150) p. 159-167, illus.
The Eradication of smallpox. Fenner, Frank. (150) p. 147-158, illus.
Human virus diseases in China: research and control. Zhu Ji-ming. (150) p. 137-146, illus., maps.
Human virus diseases in China: research and control. Zhu Ji-ming. (150) p. 137-146, illus., maps.
Lassa fever and other viral haemorrhagic disorders. Tomori, Oyewale. (150) p. 115-128, illus.
Man and viruses. (150) p. 105-201, illus., maps.
Man, poultry and viruses. Latif Ibrahim, Abdul. Ideris, Aini. (150) p. 171-178, illus.
Plant virus diseases and the application of biotechnology. Robinson, David J. (150) p. 193-201, illus.
Rinderpest and peste des petits ruminants: constant threats to animal farming in many developing countries. Diallo, Adama. (150) p. 179-192, illus., maps.
Unesco's action on AIDS. (150) p. 169-170.
The Virus: man's formidable adversary. Thé, Hugues de. (150) p. 107-114, illus.
Earth sciences
Promoting progress through science. Marchuk, Guri Ivanovich. (149) p. 85-95.
Electrical conductivity
The Superconductivity revolution? Smith, T. Fred. (149) p. 15-24, illus.
Electron microscopes
A New generation of microscopes. Galloway, John Woodhead. (149) p. 61-74, illus.
Electronics industry
Advanced ceramics. Juillard, Jacqueline. (149) p. 25-37, illus.
Materials by design. Wood, John V. (149) p. 5-13, illus.
Engineering industry
The Laser, a versatile tool. Mehendale, Shrikant C. Rustagi, Kailash C. (149) p. 47-59, illus.
Epidemiology
AIDS: a global strategy for a global challenge. Mann, Jonathan M. (150) p. 159-167, illus.
The Hepatitis B virus. Sonigo, Pierre. (150) p. 129-135, illus., maps.
Lassa fever and other viral haemorrhagic disorders. Tomori, Oyewale. (150) p. 115-128, illus.
Eureka
Advanced ceramics. Juillard, Jacqueline. (149) p. 25-37, illus.
Europe
Advanced ceramics. Juillard, Jacqueline. (149) p. 25-37, illus.
Science, scientists and society: public attitudes towards science and technology. Khan, Rahat Nabi. (151) p. 257-271.
Experiments
Science in its confrontation with society. Calvora, Robert G. (151) p. 231-238.
France
Museology and scientific culture. Saunier, Diane. (152) p. 337-353, illus.
Science and anti-science: an old story. Dhombres, Jean. (151) p. 209-217.
Genes
Automatic DNA sequencing and the human genome sequencing project. Labouze, Eric. (149) p. 75-84, illus.
The Hepatitis B virus. Sonigo, Pierre. (150) p. 129-135, illus., maps.
Geochemistry
The Scientific heritage of Vladimir Vernadsky. Yanshine, A.L. Yanshina, F.T. (151) p. 283-296.
Girls education
Popularization of science in Denmark in relation to women. Olesen, Dorte. (152) p. 373-382, illus.
Health
Is good, popular science television possible? Mosley, Michael. (152) p. 387-395, illus.

Health education
Unesco's action on AIDS. (150) p. 169-170.
History of science
A New generation of microscopes. Galloway, John Woodhead. (149) p. 61-74, illus.
Science and anti-science: an old story. Dhombres, Jean. (151) p. 209-217.
The Scientific heritage of Vladimir Vernadsky. Yanshine, A.L. Yanshina, F.T. (151) p. 283-296.
Human genetics
Automatic DNA sequencing and the human genome sequencing project. Labouze, Eric. (149) p. 75-84, illus.
Human Genome Sequencing Project
Automatic DNA sequencing and the human genome sequencing project. Labouze, Eric. (149) p. 75-84, illus.
Immunology
The Eradication of smallpox. Fenner, Frank. (150) p. 147-158, illus.
The Virus: man's formidable adversary. Thé, Hugues de. (150) p. 107-114, illus.
Industrial revolution
Science and anti-science: an old story. Dhombres, Jean. (151) p. 209-217.
Infectious diseases
AIDS: a global strategy for a global challenge. Mann, Jonathan M. (150) p. 159-167, illus.
The Hepatitis B virus. Sonigo, Pierre. (150) p. 129-135, illus., maps.
Human virus diseases in China: research and control. Zhu Ji-ming. (150) p. 137-146, illus., maps.
Lassa fever and other viral haemorrhagic disorders. Tomori, Oyewale. (150) p. 115-128, illus.
Man and viruses. (150) p. 105-201, illus., maps.
The Virus: man's formidable adversary. Thé, Hugues de. (150) p. 107-114, illus.
Influenza
Human virus diseases in China: research and control. Zhu Ji-ming. (150) p. 137-146, illus., maps.
Information technology
The Laser, a versatile tool. Mehendale, Shrikant C. Rustagi, Kailash C. (149) p. 47-59, illus.
Intergovernmental organizations
Science: the need for North-South conciliation. Faruqui, Akhtar Mahmud. (151) p. 273-282.
International assistance
Science: the need for North-South conciliation. Faruqui, Akhtar Mahmud. (151) p. 273-282.
International cooperation
AIDS: a global strategy for a global challenge. Mann, Jonathan M. (150) p. 159-167, illus.
The Eradication of smallpox. Fenner, Frank. (150) p. 147-158, illus.
Unesco's action on AIDS. (150) p. 169-170.
Japan
Advanced ceramics. Juillard, Jacqueline. (149) p. 25-37, illus.
Journalism
Arab scientific journalism: achievements and aspirations. Mawlawi, Radwan. (152) p. 397-409.
Science popularization in a changing world. (152) p. 301-409, illus.
Journalists
Communicating science to the sceptics. Pockley, Peter. (151) p. 219-229.
Issues in the popularization of science. Kapitza, Sergei P. (152) p. 317-326.
Science popularization in a changing world. (152) p. 301-409, illus.
Lasers
The Laser, a versatile tool. Mehendale, Shrikant C. Rustagi, Kailash C. (149) p. 47-59, illus.
A New generation of microscopes. Galloway, John Woodhead. (149) p. 61-74, illus.
Lenses
A New generation of microscopes. Galloway, John Woodhead. (149) p. 61-74, illus.
Machines
New materials, new machines. (149) p. 1-98, illus.
Magnetism
Materials by design. Wood, John V. (149) p. 5-13, illus.
Malaysia
Man, poultry and viruses. Latif Ibrahim, Abdul. Ideris, Aini. (150) p. 171-178, illus.
Mass media
Communicating science to the sceptics. Pockley, Peter. (151) p. 219-229.
Fostering understanding between scientists and the public. Zhang Daoyi. (152) p. 355-362, illus.
Is good, popular science television possible? Mosley, Michael. (152) p. 387-395, illus.
Issues in the popularization of science. Kapitza, Sergei P. (152) p. 317-326.
Public dialogue on science in Sweden. Dyring, Annagreta. (152) p. 327-336.
Materials science
Advanced ceramics. Juillard, Jacqueline. (149) p. 25-37, illus.
Materials by design. Wood, John V. (149) p. 5-13, illus.
New materials, new machines. (149) p. 1-98, illus.
Materials testing
The Superconductivity revolution? Smith, T. Fred. (149) p. 15-24, illus.
Mathematics
Promoting progress through science. Marchuk, Guri Ivanovich. (149) p. 85-95.
The Promotion of science in an African country. Touré, Saliou. (152) p. 363-371.
Measles
The Eradication of smallpox. Fenner, Frank. (150) p. 147-158, illus.
Human virus diseases in China: research and control. Zhu Ji-ming. (150) p. 137-146, illus., maps.
Medical research
Human virus diseases in China: research and control. Zhu Ji-ming. (150) p. 137-146, illus., maps.
Man and viruses. (150) p. 105-201, illus., maps.
Medical technology
Materials by design. Wood, John V. (149) p. 5-13, illus.
The Materials of life. Jozefonvicz, Jacqueline.

Jozefowicz, Marcel. (149) p. 39-46, illus.

Microscopy
A New generation of microscopes. Galloway, John Woodhead. (149) p. 61-74, illus.

Mineralogy
The Scientific heritage of Vladimir Vernadsky. Yanshine, A.L. Yanshina, F.T. (151) p. 283-296.

Museology
Museology and scientific culture. Saunier, Diane. (152) p. 337-353, illus.
Science popularization in a changing world. (152) p. 301-409, illus.

Museum activities
Museology and scientific culture. Saunier, Diane. (152) p. 337-353, illus.
Public dialogue on science in Sweden. Dyring, Annagreta. (152) p. 327-336.

Natural resources
The Scientific heritage of Vladimir Vernadsky. Yanshine, A.L. Yanshina, F.T. (151) p. 283-296.

New technologies
Advanced ceramics. Juillard, Jacqueline. (149) p. 25-37, illus.
Automatic DNA sequencing and the human genome sequencing project. Labouze, Eric. (149) p. 75-84, illus.
The Laser, a versatile tool. Mehendale, Shrikant C. Rustagi, Kailash C. (149) p. 47-59, illus.
New materials, new machines. (149) p. 1-98, illus.
Promoting progress through science. Marchuk, Guri Ivanovich. (149) p. 85-95.

North-South relations
Science: the need for North-South conciliation. Faruqui, Akhtar Mahmud. (151) p. 273-282.

Nuclear energy
The Scientific heritage of Vladimir Vernadsky. Yanshine, A.L. Yanshina, F.T. (151) p. 283-296.

Oceanography
Promoting progress through science. Marchuk, Guri Ivanovich. (149) p. 85-95.

Optical devices
A New generation of microscopes. Galloway, John Woodhead. (149) p. 61-74, illus.

Pest control
Rinderpest and peste des petits ruminants: constant threats to animal farming in many developing countries. Diallo, Adama. (150) p. 179-192, illus., maps.

Physics
Promoting progress through science. Marchuk, Guri Ivanovich. (149) p. 85-95.

Plant diseases
Plant virus diseases and the application of biotechnology. Robinson, David J. (150) p. 193-201, illus.

Poliomyelitis
The Eradication of smallpox. Fenner, Frank. (150) p. 147-158, illus.
Human virus diseases in China: research and control. Zhu Ji-ming. (150) p. 137-146, illus., maps.

Poultry
Man, poultry and viruses. Latif Ibrahim, Abdul. Ideris, Aini. (150) p. 171-178, illus.

Public health
The Virus: man's formidable adversary. Thé, Hugues de. (150) p. 107-114, illus.

Public information
Advocating science: literacy and public understanding. Shortland, Michael. (152) p. 305-316.
Communicating science to the sceptics. Pockley, Peter. (151) p. 219-229.
The Public perception of science. (151) p. 206-298.
Science popularization in a changing world. (152) p. 301-409, illus.

Public opinion
Advocating science: literacy and public understanding. Shortland, Michael. (152) p. 305-316.
The Public perception of science. (151) p. 206-298.

Public opinion polls
Science, scientists and society: public attitudes towards science and technology. Khan, Rahat Nabi. (151) p. 257-271.

Research and development
Science: the need for North-South conciliation. Faruqui, Akhtar Mahmud. (151) p. 273-282.

Research coordination
Advanced ceramics. Juillard, Jacqueline. (149) p. 25-37, illus.

Robots
Automatic DNA sequencing and the human genome sequencing project. Labouze, Eric. (149) p. 75-84, illus.

Science and technology
The Public perception of science. (151) p. 206-298.
Science in its confrontation with society. Calvora, Robert G. (151) p. 231-238.
Science, scientists and society: public attitudes towards science and technology. Khan, Rahat Nabi. (151) p. 257-271.
Science, technology and African values. Urevbu, Andrew O. (151) p. 239-248.
Science: the need for North-South conciliation. Faruqui, Akhtar Mahmud. (151) p. 273-282.

Science museums
Museology and scientific culture. Saunier, Diane. (152) p. 337-353, illus.
Popularization of science in Denmark in relation to women. Olesen, Dorte. (152) p. 373-382, illus.

Science philosophy
Science and anti-science: an old story. Dhombres, Jean. (151) p. 209-217.

Science popularization
Advocating science: literacy and public understanding. Shortland, Michael. (152) p. 305-316.
Arab scientific journalism: achievements and aspirations. Mawlawi, Radwan. (152) p. 397-409.
Communicating science to the sceptics. Pockley, Peter. (151) p. 219-229.
Fostering understanding between scientists and

the public. Zhang Daoyi. (152) p. 355-362, illus.
Is good, popular science television possible? Mosley, Michael. (152) p. 387-395, illus.
Issues in the popularization of science. Kapitza, Sergei P. (152) p. 317-326.
Popularization of science in Denmark in relation to women. Olesen, Dorte. (152) p. 373-382, illus.
The Promotion of science in an African country. Touré, Saliou. (152) p. 363-371.
Public dialogue on science in Sweden. Dyring, Annagreta. (152) p. 327-336.
(Science popularization): comment. Coppens, Yves. (152) p. 301-304.
Science popularization in a changing world. (152) p. 301-409, illus.
Science through the cartoonist's eye. Harris, Sidney. (152) p. 383-386, illus.,

Scientific cultures
Advocating science: literacy and public understanding. Shortland, Michael. (152) p. 305-316.
Museology and scientific culture. Saunier, Diane. (152) p. 337-353, illus.

Scientific development
Promoting progress through science. Marchuk, Guri Ivanovich. (149) p. 85-95.

Scientific expenditure
Science: the need for North-South conciliation. Faruqui, Akhtar Mahmud. (151) p. 273-282.

Scientific information
Communicating science to the sceptics. Pockley, Peter. (151) p. 219-229.
The Public perception of science. (151) p. 206-298.
Science popularization in a changing world. (152) p. 301-409, illus.

Scientific innovations
New materials, new machines. (149) p. 1-98, illus.

Scientific periodicals
Issues in the popularization of science. Kapitza, Sergei P. (152) p. 317-326.

Scientific progress
Science and anti-science: an old story. Dhombres, Jean. (151) p. 209-217.
The Social function of science fifty years on. Kröber, Günter. (151) p. 249-255.

Scientific publications
Arab scientific journalism: achievements and aspirations. Mawlawi, Radwan. (152) p. 397-409.
Public dialogue on science in Sweden. Dyring, Annagreta. (152) p. 327-336.

Scientific research
The Laser, a versatile tool. Mehendale, Shrikant C. Rustagi, Kailash C. (149) p. 47-59, illus.
Promoting progress through science. Marchuk, Guri Ivanovich. (149) p. 85-95.
Public dialogue on science in Sweden. Dyring, Annagreta. (152) p. 327-336.
The Public perception of science. (151) p. 206-298.
Science in its confrontation with society. Calvora, Robert G. (151) p. 231-238.
Science: the need for North-South conciliation. Faruqui, Akhtar Mahmud. (151) p. 273-282.
The Scientific heritage of Vladimir Vernadsky. Yanshine, A.L. Yanshina, F.T. (151) p. 283-296.

Scientists
The Scientific heritage of Vladimir Vernadsky. Yanshine, A.L. Yanshina, F.T. (151) p. 283-296.
The Social function of science fifty years on. Kröber, Günter. (151) p. 249-255.

Smallpox
The Eradication of smallpox. Fenner, Frank. (150) p. 147-158, illus.

Social change
Science popularization in a changing world. (152) p. 301-409, illus.

Social problems
Issues in the popularization of science. Kapitza, Sergei P. (152) p. 317-326.
Science in its confrontation with society. Calvora, Robert G. (151) p. 231-238.

Social progress
The Social function of science fifty years on. Kröber, Günter. (151) p. 249-255.

Social responsibility
The Social function of science fifty years on. Kröber, Günter. (151) p. 249-255.

Social sciences
Promoting progress through science. Marchuk, Guri Ivanovich. (149) p. 85-95.

Socio-economic factors
AIDS: a global strategy for a global challenge. Mann, Jonathan M. (150) p. 159-167, illus.
Lassa fever and other viral haemorrhagic disorders. Tomori, Oyewale. (150) p. 115-128, illus.

Sociology of science
Science in its confrontation with society. Calvora, Robert G. (151) p. 231-238.
Science, scientists and society: public attitudes towards science and technology. Khan, Rahat Nabi. (151) p. 257-271.
The Social function of science fifty years on. Kröber, Günter. (151) p. 249-255.

Surface chemistry
Materials by design. Wood, John V. (149) p. 5-13, illus.

Survey data
Science, scientists and society: public attitudes towards science and technology. Khan, Rahat Nabi. (151) p. 257-271.

Sweden
Public dialogue on science in Sweden. Dyring, Annagreta. (152) p. 327-336.

Swedish Council for Planning and Coordination of Research
Public dialogue on science in Sweden. Dyring, Annagreta. (152) p. 327-336.

Technological change
A New generation of microscopes. Galloway, John Woodhead. (149) p. 61-74, illus.

Technological forecasting
Promoting progress through science. Marchuk, Guri Ivanovich. (149) p. 85-95.

Technology transfer
Man, poultry and viruses. Latif Ibrahim, Abdul. Ideris, Aini. (150) p. 171-178, illus.

Science, technology and African values. Urevbu, Andrew O. (151) p. 239-248.

Television

Communicating science to the sceptics. Pockley, Peter. (151) p. 219-229.

Is good, popular science television possible? Mosley, Michael. (152) p. 387-395, illus.

Issues in the popularization of science. Kapitza, Sergei P. (152) p. 317-326.

Popularization of science in Denmark in relation to women. Olesen, Dorte. (152) p. 373-382, illus.

Science popularization in a changing world. (152) p. 301-409, illus.

Traditional societies

Science, technology and African values. Urevbu, Andrew O. (151) p. 239-248.

Tropical diseases

Lassa fever and other viral haemorrhagic disorders. Tomori, Oyewale. (150) p. 115-128, illus.

Unesco–Aims and activities

Unesco's action on AIDS. (150) p. 169-170.

Universities

Popularization of science in Denmark in relation to women. Olesen, Dorte. (152) p. 373-382, illus.

USA

Advanced ceramics. Juillard, Jacqueline. (149) p. 25-37, illus.

Science, scientists and society: public attitudes towards science and technology. Khan, Rahat Nabi. (151) p. 257-271.

USSR

Promoting progress through science. Marchuk, Guri Ivanovich. (149) p. 85-95.

The Scientific heritage of Vladimir Vernadsky. Yanshine, A.L. Yanshina, F.T. (151) p. 283-296.

Vaccination

The Eradication of smallpox. Fenner, Frank. (150) p. 147-158, illus.

The Hepatitis B virus. Sonigo, Pierre. (150) p. 129-135, illus., maps.

Man, poultry and viruses. Latif Ibrahim, Abdul. Ideris, Aini. (150) p. 171-178, illus.

Rinderpest and peste des petits ruminants: constant threats to animal farming in many developing countries. Diallo, Adama. (150) p. 179-192, illus., maps.

The Virus: man's formidable adversary. Thé, Hugues de. (150) p. 107-114, illus.

Vernadsky, Vladimir Ivanovich

The Scientific heritage of Vladimir Vernadsky. Yanshine, A.L. Yanshina, F.T. (151) p. 283-296.

Veterinary medicine

Rinderpest and peste des petits ruminants: constant threats to animal farming in many developing countries. Diallo, Adama. (150) p. 179-192, illus., maps.

Virology

Man and viruses. (150) p. 105-201, illus., maps.

Viruses

AIDS: a global strategy for a global challenge. Mann, Jonathan M. (150) p. 159-167, illus.

The Eradication of smallpox. Fenner, Frank. (150) p. 147-158, illus.

The Hepatitis B virus. Sonigo, Pierre. (150) p. 129-135, illus., maps.

Human virus diseases in China: research and control. Zhu Ji-ming. (150) p. 137-146, illus., maps.

Lassa fever and other viral haemorrhagic disorders. Tomori, Oyewale. (150) p. 115-128, illus.

Man and viruses. (150) p. 105-201, illus., maps.

Man, poultry and viruses. Latif Ibrahim, Abdul. Ideris, Aini. (150) p. 171-178, illus.

Plant virus diseases and the application of biotechnology. Robinson, David J. (150) p. 193-201, illus.

Rinderpest and peste des petits ruminants: constant threats to animal farming in many developing countries. Diallo, Adama. (150) p. 179-192, illus., maps.

The Virus: man's formidable adversary. Thé, Hugues de. (150) p. 107-114, illus.

WHO Special Programme on AIDS

AIDS: a global strategy for a global challenge. Mann, Jonathan M. (150) p. 159-167, illus.

Women

Popularization of science in Denmark in relation to women. Olesen, Dorte. (152) p. 373-382, illus.

Science popularization in a changing world. (152) p. 301-409, illus.

Womens participation

Popularization of science in Denmark in relation to women. Olesen, Dorte. (152) p. 373-382, illus.

Youth activities

Popularization of science in Denmark in relation to women. Olesen, Dorte. (152) p. 373-382, illus.

Public dialogue on science in Sweden. Dyring, Annagreta. (152) p. 327-336.

IMPACT OF SCIENCE ON SOCIETY, 1988

Author index

Calvora, Robert G.
Science in its confrontation with society. (151) p. 231-238.

Coppens, Yves
(Science popularization): comment. (152) p. 301-304.

Dhombres, Jean
Science and anti-science: an old story. (151) p. 209-217.

Diallo, Adama
Rinderpest and peste des petits ruminants: constant threats to animal farming in many developing countries. (150) p. 179-192, illus., maps.

Dyring, Annagreta
Public dialogue on science in Sweden. (152) p. 327-336.

Faruqui, Akhtar Mahmud
Science: the need for North-South conciliation. (151) p. 273-282.

Fenner, Frank
The Eradication of smallpox. (150) p. 147-158, illus.

Galloway, John Woodhead
A New generation of microscopes. (149) p. 61-74, illus.

Harris, Sidney
Science through the cartoonist's eye. (152) p. 383-386, illus.,

Ideris, Aini
Man, poultry and viruses. (150) p. 171-178, illus.

Jozefonvicz, Jacqueline
The Materials of life. (149) p. 39-46, illus.

Jozefowicz, Marcel
The Materials of life. (149) p. 39-46, illus.

Juillard, Jacqueline
Advanced ceramics. (149) p. 25-37, illus.

Kapitza, Sergei P.
Issues in the popularization of science. (152) p. 317-326.

Khan, Rahat Nabi
Science, scientists and society: public attitudes towards science and technology. (151) p. 257-271.

Kröber, Günter
The Social function of science fifty years on. (151) p. 249-255.

Labouze, Eric
Automatic DNA sequencing and the human genome sequencing project. (149) p. 75-84, illus.

Latif Ibrahim, Abdul
Man, poultry and viruses. (150) p. 171-178, illus.

Mann, Jonathan M.
AIDS: a global strategy for a global challenge. (150) p. 159-167, illus.

Marchuk, Guri Ivanovich
Promoting progress through science. (149) p. 85-95.

Mawlawi, Radwan
Arab scientific journalism: achievements and aspirations. (152) p. 397-409.

Mehendale, Shrikant C.
The Laser, a versatile tool. (149) p. 47-59, illus.

Mosley, Michael
Is good, popular science television possible? (152) p. 387-395, illus.

Olesen, Dorte
Popularization of science in Denmark in relation to women. (152) p. 373-382, illus.

Pockley, Peter
Communicating science to the sceptics. (151) p. 219-229.

Robinson, David J.
Plant virus diseases and the application of biotechnology. (150) p. 193-201, illus.

Rustagi, Kailash C.
The Laser, a versatile tool. (149) p. 47-59, illus.

Saunier, Diane
Museology and scientific culture. (152) p. 337-353, illus.

Shortland, Michael
Advocating science: literacy and public understanding. (152) p. 305-316.

Smith, T. Fred
The Superconductivity revolution? (149) p. 15-24, illus.

Sonigo, Pierre
The Hepatitis B virus. (150) p. 129-135, illus., maps.

Thé, Hugues de
The Virus: man's formidable adversary. (150) p. 107-114, illus.

Tomori, Oyewale
Lassa fever and other viral haemorrhagic disorders. (150) p. 115-128, illus.

Touré, Saliou
The Promotion of science in an African country. (152) p. 363-371.

Urevbu, Andrew O.
Science, technology and African values. (151) p. 239-248.

Wood, John V.
Materials by design. (149) p. 5-13, illus.

Yanshina, F.T.
The Scientific heritage of Vladimir Vernadsky. (151) p. 283-296.

Yanshine, A.L.
The Scientific heritage of Vladimir Vernadsky. (151) p. 283-296.
Zhang Daoyi
Fostering understanding between scientists and the public. (152) p. 355-362, illus.
Zhu Ji-ming
Human virus diseases in China: research and control. (150) p. 137-146, illus., maps.
